

KF 1250

EN: The **Glassmove®** mechanism, which provides flexibility for the glass is available in the KF series. The KF 1250 series was developed and structured in line with the recommendation and demands of architectures in the application field, and it may be used in larger projects such as shopping malls and hotels.

Thickness of the glass may be selected optionally between 12 -21.52 millimeters.

FR: Le mécanisme **Glassmove®**, qui offre de la flexibilité pour le verre, est disponible dans la série KF. La série KF 1250 a été développée et structurée conformément aux recommandations et aux exigences des architectures dans le domaine, et peut être utilisée dans des grands projets tels que centres commerciaux et hôtels.

L'épaisseur du verre peut être choisie en option entre 12 et 21,52 millimètres.

DE: Der **Glassmove®**-Mechanismus, der Flexibilität für das Glas bietet, ist in der KF-Serie erhältlich. Die KF 1250-Serie wurde gemäß den Empfehlungen und Anforderungen von Architekturen im Anwendungsbereich entwickelt und strukturiert und kann in größeren Projekten wie z Einkaufszentren und Hotels.

Die Dicke des Glases kann optional zwischen 12 und 21,52 Millimetern gewählt werden.

KF 1250 CODES

- KF1250.250.00
- KF1250.500.00

PROFILE DRAWING

LOAD CAPACITY

EN: Aluminum alloy EN AW 6063 displacement results for 1 mt base profile under 500 kg (5000 nt) horizontal load to the highest surface of the profile.

FR: Alliage d'aluminium EN AW 6063 résultats de déplacement pour un profil de base de 1 mt sous une charge horizontale de 500 kg (5000 nt) sur la surface la plus élevée du profil.

DE: Die Verschiebung der Aluminiumlegierung EN AW 6063 ergibt ein Grundprofil von 1 m bei einer horizontalen Belastung von 500 kg (5000 nt) auf die höchste Oberfläche des Profils.
